## Peaceful Parenting

Parenting is not an easy job. Do you want to be the kind of parent your mother or father was? Or have you decided you want to be very different from either of your parents? No matter what our decision, there are plenty of situations we face where we feel unprepared. Right or wrong, without alternatives most of us fall back on what our own parents did.

Luckily there is an answer for these difficulties. Parent training is the answer. Abundant research now indicates that the single most significant factor predicting a child's success in life is the positive relationship between children and parents. After tracking 40 children to a adulthood, different research proved that it was the parent training, completed twenty-five years previously, that made the positive difference for parents and children. Parent training pays off for parents and their children.

Here is the Good News! **PEACEFUL PARENTING®** provides alternative answers for parents, helping them learn a more effective approach to parenting. With **PEACEFUL PARENTING®** parents learn a process to help them navigate the life-long job of parenting while maintaining a loving relationship with their child. The goal of **PEACEFUL PARENTING®** is to help parents learn how to teach their children the skills necessary to become responsible, loving adults.

### **Other Workshop Topics Include:**

- Teaching Children Self-Discipline
- Teaching Mental Health
- Staff Development and Team Building
- Making Peace: More than Conflict resolution
